The Z-score, also known as a standard score, provides a way to compare a test score or some other piece of data with a normal population. For example, if you know your score is 80 and that the mean score is 50, you know you scored above average, but you don't know how many other students did as well as you.

He created the premier B2B Sales media company for all things sales innovation, Sales Hacker, and ramped them up to over 150,000 monthly visitors before joining Outreach through acquisition.

Z: Glossary of B2B Sales Definitions - Sales Hacker

Training is teaching, or developing in oneself or others, any skills and knowledge that relate to specific useful competencies. Training has specific goals of improving one's capability, capacity, productivity and performance. It forms the core of apprenticeships and provides the backbone of content at institutes of technology (also known as technical colleges or polytechnics).
