A database can be upgraded either using DBUA or manual method. But for major production databases, it is better to do it manually, so that troubleshooting will be easy. Here we will provide steps for upgrading from 11gr2 to 12c database manually. Before starting the upgrade make sure Oracle 12c database binary already installed on [...]

I am using an oracle 11 table with interval partitioning and list subpartitioning like this (simplified):  
CREATE TABLE LOG ( ID NUMBER(15, 0) NOT NULL PRIMARY KEY , MSG\_TIME DATE NOT NULL , MSG\_NR

### **Oracle: how to drop a subpartition of a specific partition**

Thanks for this precision Wim! I must admit that I never tried that on a multi-tenant installation. I would have expected another solution to separate the documents per tenant since Alfresco is able to separate them properly and I don't think that Alfresco is checking which user created the document for that but that's still a solution so thanks ;).
