

California Institute Of Technology Math

California Institute Of Technology Math

Caltech's mathematics program brings together faculty, researchers, and students who have a breadth of interests and expertise in the use and analysis of numbers, and who are interested in collaborating with colleagues across fields to solve some of the most complicated problems of our time.

Thomas Yizhao Hou - California Institute of Technology

Additionally, our faculty participate in three unique interdisciplinary programs that focus on the emerging interfaces at the boundaries of computer science, electrical engineering, applied math, and biology.

Graduate Studies - California Institute of Technology

The Computing + Mathematical Sciences (CMS) Department is nestled in the heart of Pasadena on the beautiful Caltech campus. CMS is home to outstanding students and researchers who share a passion for science and engineering, as well as a drive to investigate the most challenging, fundamental problems in computation and information.

Caltech Computing + Mathematical Sciences

Caltech graduate student Manuel Razo Mejia wants to predict how evolution occurs in organisms ranging from microbes to humans. Until recently, evolution has been considered a random process, but Razo Mejia believes we might detect certain patterns by applying the principles of physics and mathematics.
