Messerschmitt Me 262 The Only Operational Jet Fighter of WW2. By Stephen Sherman, Dec. 2008. Updated May 2, 2012. Mustang pilot Bud Anderson had the new German jet fighter in his sights. But as he closed in, the jet "just shrank up and vanished."

Messerschmitt Me 262 - World's First Jet Fighter

The term foo fighter was used by Allied aircraft pilots in World War II to describe various UFOs or mysterious aerial phenomena seen in the skies over both the European and Pacific theaters of operations.. Though "foo fighter" initially described a type of UFO reported and named by the U.S. 415th Night Fighter Squadron, the term was also commonly used to mean any UFO sighting from that period.

9 - Joseph J. Foss. Foss, with 26 confirmed kills, ranks number nine on the list of U.S. fighter aces of World War II, but he holds the honor of being the Marine's number one ace of the war.

Top 10 U.S. Fighter Aces of World War II - Military History

World War I was the first major conflict involving the large-scale use of aircraft. Tethered observation balloons had already been employed in several wars, and would be used extensively for artillery spotting. Germany employed Zeppelins for reconnaissance over the North Sea and Baltic and also for strategic bombing raids over Britain and the Eastern Front. ...

P-38, Mosquito, Bf 110, Ki-45-KAI and Whirlwind By Chuck Hawks. This article is about daylight fighters and interceptors. Leaving aside the jet fighters that appeared at the end of the war (the German Me 262 and British Meteor, for example), there were few successful twin-engine day fighters produced by the major combatants during WW II.

Twin-Engine Fighter Planes of World War II

The U.S. State Department wants to expand a little-known effort that offers countries cash to buy American-made weapons if they give up Russian-made arms. The year-old initiative, called the European Recapitalization Incentive Program, is already helping six eastern European countries buy new helicopters or armored vehicles.
