An informative Movie Maker product as a part of my gardening unit for Technology in Elementary Education at Western Michigan University.

How A Seed Grows

It contains the food the seed needs while it is growing roots and forming into a small plant. The three things plants need to grow are light, food and water. Light, whether from the Sun or an artificial light source (like a light bulb), gives the small plant the energy it needs to begin photosynthesis.

How Do Seeds Sprout? | Wonderopolis

How a Seed Grows by Helene J. Jordan is a young informational text for mostly kindergarten and preschoolers. The reason it is for new readers is because it teaches the basic concepts. The book is about how a small seed grows into a big oak tree.

How a Seed Grows by Helene J. Jordan - Goodreads

How a Seed Grows (Let's-Read-and-Find-Out Science 1)

Some trees can grow to be more than 100 metres tall! The newest and outer shell of a tree contains all the living parts of the wood - the parts that move water up from the roots and food down from the leaves. If trees stop growing these outer, living shells of wood, the whole tree dies.

Curious Kids: how can a tiny seed actually grow into a ...

Quick Summary. To grow plants from seed, start them indoors in pots to protect them from diseases, insects, and bad weather. When you plant them, use a seed starting mix and put 1 or 2 seeds in each pot. While you're waiting for the seeds to sprout, keep them in a warm spot with indirect sunlight.

How to Grow Plants from Seed (with Pictures) - wikiHow

Optional: Seed Growth Printable Observation Sheets You can fill in these sheets daily, when something interesting happens or weekly (it's up to you). Make sure you complete a sheet when you first put the seeds in (making observations about what the seed coats look like, feel like, etc).
