A written language is the representation of a spoken or gestural language by means of a writing system. Written language is an invention in that it must be taught to children, who will pick up spoken language or sign language by exposure even if they are not formally instructed.. A written language exists only as a complement to a specific spoken language, and no natural language is purely written.

@RegDwight: LOL. But fact is stranger than humour: Wikipedia says "Several scripts used in the Philippines and Indonesia, such as Hanunó'o, are traditionally written with lines moving away from the writer, from bottom to top, but are read horizontally left to right." Incredible! But it turns out Hanunó'o is usually written on bamboo sticks and the writing is done bottom-to-top (this answers ...
