The product range of lubrication-free drylin® linear guides is based on the principle of "gliding instead of rolling". In combination with corrosion-free materials, tribo-optimised iglidur® high performance polymers are used as a sliding surface. drylin® linear guides traverse in dry operation and are thereby maintenance-free and are insensitive to influences such as dirt, water, chemicals ...

In a comprehensive modular system, the drylin® W profile guides offer the largest product diversity within the drylin® family. The series of linear profile guides combines the modular advantages of other drylin® type series, which allows very easy assembly while maximising installation space utilisation.
