### **Science Diet Pet Food | Hill's Pet**

Science Diet is a relatively popular brand that is high on the cost spectrum but unfortunately low on the nutritional spectrum. Although it is touted as a premium diet, it contains nearly all the same ingredients as low-quality foods and no more nutrition. This problem is especially prominent with the dry formula. The main protein ingredient is a meat or poultry by-product, which can consist ...

Our science, your DNA. We are all different, and a part of this difference is as a result of our genetic profile. Genetically, there are the differences that we all see, such as eye and hair colour, but there are also the differences we don't see, how we metabolise nutrients for example, the way we deal with toxins, how well we react to different types of exercise - we all interact with ...
