What is a Word Cloud. A word cloud (also known as tag cloud or text cloud) is a visual representation of word frequency and value. It is used to highlight how often a specific term or category appears in a source of data.

Create your own Word Cloud

A tag cloud (word cloud, or weighted list in visual design) is a novelty visual representation of text data, typically used to depict keyword metadata (tags) on websites, or to visualize free form text. Tags are usually single words, and the importance of each tag is shown with font size or color. This format is useful for quickly perceiving the most prominent terms and for locating a term ...

Tag cloud - Wikipedia

The use of word clouds for illustration or explanation or presentation can never be over emphasized; hence word cloud generators are handy tools that should be in the kit of every presenter or illustrator or analyst. A Chinese proverb tells us that a picture is worth a thousand words.
